## Prospects Of New School Building: Site Problem

ADDRESSING THE GATHERING AT THE QUEEN'S COLLEGE PRIZE DISTRIBUTION YESTERDAY MORNING in what he described as his formal farewell of Queen's, Mr. F. I wish to point out here that our boys leaving from Higher Middle II are repared with such standard of Chinese that may enable them to take Higher Chinese in their Matriculation Examination after going through class I in any of our sister schools.

Of the ten students in Normal who sat for their Final Examination in July, six passed, and are going to receive their teacher certificates this morning. .It may be of interest for the public to know the proportion of time we spend in the instruction of Chinese and English. Our syllabuses are so graded that while emphasizing Chinese studies in the lower forms on the one hand, our boys should be able to follow up the English language by degrees in the course of promotion to the upper forms on the other hand.

MR. LI TSE-FONG The Hon Mr. Li Tse-fong said (in part). From the report by the Headmaster which you have just heard I am glad to observe that the general health of the school was good and the work done during the year under review was quite satisfactory. ## Work For H.K. University Engineering Graduates: Request From Chungking

SPECIAL TO THE HONGKONG DAILY PRESS

"The Chinese Government at Chungking have informed the Hongkong University authorities that they are anxious to secure the services of Engineering graduates of this University for national reconstruction work in China"—so said an announcement from Mr. W. Seven Chinese graduates in Civil, Electrical and Mechanical Engineering answered their country's call, and are now building bridges, highways, and manning powerstations in Free China.
